

## Scarab Sweepers Brexit statement

Revised 28<sup>th</sup> August 2019

Scarab Sweepers Ltd works with customers and suppliers both within and outside of the EU, and we remain focussed on the outcome of political negotiations with regard to the UK exiting the EU.

Our Staff are working hard to identify, manage and mitigate the business impacts anticipated under a 'no deal' scenario; minimising potential negative impacts on our machine, service and product provision wherever possible. Our objective is to ensure customers retain a high level of service regardless of the nature of the UK's departure from the EU.

Within the organisation, we continue to review and update processes where required, as well as communicating closely with our supply chain, to pre-empt any potential delays and shortages as a result of new trading arrangements. As part of this planning, we have made arrangements to hold a number of EU-supplied stock parts in surplus from October.

Monitoring of the political discussions continues, and we are seeking expert advice and guidance from third parties where required.
